BEAUTIFUL
Real Talk
New Logo Alert!

"Ty from RealTalk Podcast was extremely easy to work with! I had never designed a logo for a podcast before and it pushed me outside of my comfort zone. Real talk, this was so cool."
-Jordyn

Project Overview

Uncensored Beyond the Classroom is a student led organization that is a extension of podcast called RealTalk; centered around topics that are taught in the classroom as well as outsider the classroom like mental health, entrepreneurship, girl talk, barbershop talks etc. We want something schoolish/ urban. Maybe incorporate a notebook, a speech bubble or a microphone. Not really sure what we want it to look like but we want the vibe to scream "Real Talk". As far as colors we are leaning towards black, emerald green and grey.

-Tyshaun Caldwell

New Logo Alert!

"Making a logo for Shania Captures was such a fun experience. I really enjoyed getting to create something Shania loves and working one-on-one with her. Hopefully I will get to work with her again soon!"

-Izzy

Timothy

TROY UNIVERSITY
Howell

Project Overview

I am a musician, guitarist, singer, composer, and producer. I am looking for a professional logo that I can use on resumes and websites. It should be sleek and slightly edgy. Maybe using black and red.
-Timothy Howell

"This project was really fun to do! Working with the client was great since we had a lot of communication to actually figure out what they wanted. I also really enjoyed coming up with concepts for this project!"
-Shariza
